

TANUKU AKHIL

Building Intelligent Systems with Python, Machine Learning & Deep Learning

Contact: 9030132511 | tanukuakhil.tech@gmail.com | [LinkedIn](#) | [Github](#) | [Leetcode](#) | HackerRank

Summary

I am motivated by solving real-world problems through technology. When I encounter something I don't know, I learn it, apply it to a project, make mistakes, and improve through iteration. This hands-on approach has strengthened my analytical thinking, problem-solving skills, and ability to adapt to new technologies.

Education

CVR College Of Engineering | Hyderabad

B.Tech in Computer Science Of Engineering (Artificial Intelligence and Machine Learning)

2023 – 2027

CGPA : 7.89/10

Resonance Junior College | Hyderabad

Class 12 Maths Physics Chemistry (SSC)

2021 – 2023

Percentage: 94%

Frobels' Garden High School | Hyderabad

Class 10 (State Board)

2020 – 2021

GPA: 10/10

Technical Skills

Programming Languages: Python, Java, C, JavaScript

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Web Development: React.js, FastAPI, Flask, Node.js, HTML, CSS

AI & Machine Learning: Machine Learning Fundamentals, Large Language Models (LLMs), Computer Vision

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Postman, Linux

Professional Skills: Leadership, Teamwork, Communication, Problem Solving, Time Management

Projects

1. **Metrivo** – AI powered business analytics platform designed for small scale businesses by turning UPI statements, bank statements and excel reports into data driven actionable insights in the form of knowledge graphs. I used streamlit for dashboard, FastAPI for asynchronous support, python(pandas, numpy, openpyxl, pdfplumber, tabula-py, plotly) and postgresql for storing relational database for users, transactions and KPIs.

2. **DevBoard** – A web application where teams can create projects, assign tasks, track progress and collaborate in real time. I had used react.js for frontend, node.js, JWT for backend, mongoDB as a database and render,vercel for deployment.

Achievements

- Runner-up in All India Hackathon 2024, Anurag University (presented DevBoard among 24 teams)

- Finalist in ImagiPrompt competition 2024, CVR College of Engineering (demonstrated my prompt engineering skills among 230 participants)

Certifications

Deep Learning: Neural Networks certification by Udemy – 2025

Redhat Python certification 2026

Honeywell certification (Machine Learning) 2026

AIML Virtual Internship by eduskills 2025

Deloitte Australia Data Analytics Job Simulation on Forage 2026
